Final project Pre-
pitch
Shekhar Dash

THE PROBLEM

Research thinking is critical for the AI era, yet most undergraduates have zero access to real-world lab apprenticeships.

How excited am

THE SOLUTION

Intuition is a digital platform that guides students through an adaptive mini-research process, from identifying knowledge gaps to producing a research report. Dual adaptive learning loops provide real-time feedback, fostering research-oriented thinking.

TARGET USERS

High School &
Undergraduates

CORE VALUE

Research Thinking
Skills Development

METHOD

Adaptive Learning
Loops & Analytics
